

MIGUEL GARCÍA HERMIDA

Software Developer | Python · TypeScript · AWS · AI

Pontevedra, Spain | +34 626 35 69 49 | hermida95@gmail.com

linkedin.com/in/miguelgarciahermida | github.com/Hermida95

Immediate availability | Remote, hybrid or on-site in Galicia | Full driving licence (B) and own car

PROFESSIONAL SUMMARY

Qualified software developer (Higher Technical Diploma in Web Application Development, DAW) with hands-on fintech experience building APIs and microservices in **Python**, deployed with **Docker** on **Google Cloud Platform**, including the integration of large language models (**LLMs**) and agent architectures. I also work with **TypeScript**, **Node.js** and **React**, and I am actively training in **AWS** (Solutions Architect Associate certification in progress). I bring six prior years leading teams and operations in retail: autonomy, direct customer contact and problem-solving under pressure. English C1. I am looking to join a development team where I can keep growing, fully willing to learn the project's stack and methodologies.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript (ES6+), SQL, basic PHP

Backend: FastAPI, Django (DRF), Node.js, REST APIs, microservices architecture

Frontend: React, TypeScript, HTML/CSS, progressive web apps (PWA)

Cloud & containers: Docker, Google Cloud Platform (GCP), AWS (EC2, S3; SAA certification in progress), Linux (Ubuntu/Debian)

Databases: PostgreSQL, MySQL, MongoDB

AI in development: LLM integration (Anthropic/Claude API), intelligent agents, Model Context Protocol (MCP)

Version control & CI/CD: Git, GitHub, GitHub Actions

Automation: n8n

Methodologies: Agile / Scrum, daily standups, Clean Code, code reviews

Currently learning: AWS (SAA), Terraform, Kubernetes

PROFESSIONAL EXPERIENCE

Backend Developer — Coinscrap Finance (fintech)

Pontevedra, Spain | 04/2026 – 07/2026

- Developed **Python** components for a corporate intelligent assistant based on large language models (**LLMs**) and agent architectures.
- Designed **REST APIs** and automated data-processing scripts, deployed as **microservices** in **Docker** containers on **Google Cloud Platform (GCP)**.
- Integrated with other teams' systems and took part in the Agile cycle: daily standups, code reviews and deliveries.

Store Manager and Team Lead — Paralel Store

Pontevedra, Spain | 01/2023 – 08/2024

- Ran the operations of 2 stores and a team of 7 people.
- Designed and executed the Black Friday campaign: **+66% revenue** over the weekend versus the previous year.
- Shift planning, incident handling and conflict resolution in high-pressure environments.

Founder and Operations Manager — Recreate Store (e-commerce)

Pontevedra, Spain | 09/2020 – 01/2023

- Built and ran a profitable e-commerce brand, from logistics to digital channels.
- Launched the online sales platform with nationwide reach: **+35% revenue** in the first year.

Section Manager and Inventory Control — JD Sports

Santiago de Compostela, Spain | 05/2016 – 02/2018

- Managed the inventory cycle and assortment of the main section.
- Improved stock rotation by **20%** by designing a predictive replenishment system.

TECHNICAL PROJECTS

EvaOS — React, TypeScript, PostgreSQL — github.com/Hermida95

- Progressive web app (PWA) for healthcare staff shift planning, taking the applicable employment regulations into account.

CV AI Optimizer — Python, Docker, LLM agents — github.com/Hermida95

- Analysis pipeline that processes résumés and job postings and uses LLM agents to detect technical skill matches.
- Containerized with Docker to ensure environment independence.

EDUCATION

- **Higher Technical Diploma in Web Application Development (DAW)** — Ilerna FP | 2024 – 2026
- **BA in English Language and Literature** — Universidade de Santiago de Compostela (USC) | 2014 – 2019
- **ThePowerMBA Programme** — Business Management and Administration | 2019 – 2020

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA) — **in progress**
- IBM — Docker Essentials: A Developer Introduction (05/2026)
- Anthropic — Claude Code in Action (03/2026) · Claude with the Anthropic API (03/2026) · Introduction to Model Context Protocol (06/2026)
- n8n — Course Level 1: workflow automation

LANGUAGES

- Spanish and Galician: native
- English: C1 — BA in English Philology (USC). Technical documentation and work in international teams
- French: B2
