

MIGUEL GARCÍA HERMIDA

Junior Backend Developer | Python • Node.js • Docker • Cloud

Pontevedra, Spain | +34 626 35 69 49 | hermida95@gmail.com

linkedin.com/in/miguelgarciahermida | github.com/Hermida95

Available immediately | Remote (Spain / Europe) or hybrid in Galicia | EU citizen — no work permit required in the EU

PROFESSIONAL PROFILE

Junior backend developer, qualified as a Higher Technician in Web Application Development (DAW, EQF Level 5), with hands-on experience in a fintech environment building Python APIs and services deployed in Docker containers on Google Cloud Platform, including large language model (LLM) integration and agent architectures. I also bring six years of prior experience leading teams and operations in retail, which translates into ownership, direct client communication and problem-solving under pressure. English C1. I am looking to join a development team where I can consolidate my backend profile, and I am fully prepared to train on the project's stack and methodologies.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL

Backend & frameworks: FastAPI, Django, Node.js, REST APIs, microservices architecture

Databases: MySQL, PostgreSQL, MongoDB

Containers & cloud: Docker, Google Cloud Platform (GCP), Linux (Ubuntu/Debian)

Version control & CI/CD: Git, GitHub, GitHub Actions

AI applied to development: Anthropic API (Claude), LLM integration, intelligent agents, Model Context Protocol (MCP)

Automation: n8n

Methodologies: Agile / Scrum, daily standups, Clean Code, code quality review

Currently learning: AWS (EC2, S3 — SAA certification in progress), Terraform, Kubernetes

PROFESSIONAL EXPERIENCE

Backend Developer (internship) — Coinscrap Finance (fintech)

Pontevedra, Spain | 04/2026 – 07/2026

- Developed backend components in Python for a corporate smart assistant built on large language models (LLMs) and agent architectures.
- Designed REST APIs and automated data-processing scripts, deployed as microservices in Docker containers on Google Cloud Platform (GCP).
- Integrated with other teams' systems and took part in the project's Agile cycle: daily standups, code reviews and releases.

Store Manager & Team Lead — Paralel Store

Pontevedra, Spain | 01/2023 – 08/2024

- Ran business operations across 2 stores and led a team of 7 people.
- Designed and executed the Black Friday campaign: +66% weekend revenue year on year.
- Shift planning, incident handling and conflict resolution in high-pressure environments.

Founder & Operations Manager — Recreate Store (e-commerce)

Pontevedra, Spain | 09/2020 – 01/2023

- Built and ran a profitable e-commerce brand, from logistics through to digital channels.
- Launched the online sales platform with nationwide reach: +35% revenue in its first year of trading.

Section Manager & Inventory Control — JD Sports

Santiago de Compostela, Spain | 05/2016 – 02/2018

- Managed the inventory cycle and product range for the main department.
- Improved stock turnover by 20% by designing a predictive restocking system.

TECHNICAL PROJECTS

CV AI Optimizer — Python, Docker, LLM agents — github.com/Hermida95

- Analysis pipeline that processes CVs and job postings and uses LLM agents to detect technical skill matches.
- Containerised with Docker to guarantee runtime environment independence.

EvaOS — React, TypeScript, PostgreSQL — github.com/Hermida95

- Progressive web app (PWA) for scheduling healthcare staff shifts, accounting for the applicable employment regulations.

EDUCATION

Higher Technician in Web Application Development (DAW): Ilerna FP, Spain | 2024 – 2026 | EQF Level 5

BA in English Language and Literature: University of Santiago de Compostela (USC) | 2014 – 2019

ThePowerMBA — Business Management and Administration: 2019 – 2020

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA) — in progress
- IBM — Docker Essentials: A Developer Introduction (05/2026)
- Anthropic — Claude Code in Action (03/2026)
- Anthropic — Claude with the Anthropic API (03/2026)
- Anthropic — Introduction to Model Context Protocol (06/2026)
- n8n — Course Level 1: workflow automation

LANGUAGES

Spanish and Galician: native

English: C1 — BA in English Philology (USC). Technical documentation and work in international teams

French: B2
